

## In From The Outside

Chris Trapper

Stay with me for a thousand years  
'til our mistakes wash away my dear  
When sweet Maria is by my side  
Like a river I'm open wide

Ooh my dreams  
Are calling me  
To come inside from the outside now  
Wasted my time  
Standing in line  
I'll come inside from the outside now

Stay with me 'til the end of time  
Feel your heart beating next to mine  
Life your gates up and feel my flood  
Sweat on sweat and blood on blood

Ooh my dreams  
Are calling me  
To come inside from the outside now  
Wasted my time  
Standing in line  
I'll come inside from the outside now

Breathe your last breath and I will die  
Just let my last wish be satisfied  
Bury Maria right by my side  
Dust and bones intertwined

Ooh my dreams  
Are calling me  
To come inside from the outside now  
Wasted my time  
Standing in line  
I'll come inside from the outside now
