

Lonely Valentine

Chris Trapper

I've been humming your song all day
I've been wasting the words away
Lonely valentine
Please come back to me
One more time

I've been wandering in every room
But I can't find a trace of you
Lonely valentine
Please come back to me
One last time

Watching steam turn to clouds
See the skyline send its angels on down
To lift my feet off this stone
To complete me though I'm still more alone
I'll just say I will wait for you

I went running into the crowd
I was calling your name out loud
Lonely valentine
Better luck next time
Somewhere down the line

I got home I was out of breath
You were waiting on my front steps
With a valentine
It said that you'll be mine
'til the end of time

Watching steam turn to clouds
See the skyline send its angels on down
To lift my feet off this stone
To complete me though I'm still more alone
I'll just say I will wait for you
I'll just say I will wait for you
