

## Set It Off

Chris Webby

Yeah I'm about to set if off  
Yeah I'm about to set if off  
Yeah I'm about to set if off  
Yeah I'm about to set if off

Untame on the mic, the dangerous type  
And this is real life, it ain't just the way that I write  
We can pour a drink, roll that mary jane up and light  
So baby come to Webby's world, I'll make you famous tonight  
Place your bets y'all gon' pay it in full  
Never graduated from school but I made it this cool  
Now I'm here motherfucker, ain't no April fools  
Right to the top like I'm defying gravitational pull  
Cause I started young but I'm older now  
Learned a lot up in the game, got a doper sound  
Travelling around the world, getting cultured now  
But still rolling with my dogs when I'm homeward bound  
When I see Sap at the back of the weed spot  
We gon get so fucking high that we pass it to Ewok  
Then we turn it up so loud that the back of your seat rocks  
From the very second that the beat drops

I'm about to set it off, yo, ready, set, go  
If you tryna get it cracking let me know!  
I'm about to set it off, whoa, bitches getting low  
They be sweating when I be walking through the door  
I'm about to set it off

Stay writing while rhyming and stage diving  
All in, going so hard I could break diamonds  
I been patiently waiting but learned that it takes time  
And now I got the same look in my eye as a caged lion  
I been on my hustle why the fuck you think I'm doing this?  
Book of rhymes thicker than a Tarantino movie script  
Rolling up a doobie and we jumping in the Uber whip  
Until the driver take me to the top, I'm bout to do this shit  
So animated, call me Bugs Bunny  
Since I used to battle cats for they lunch money  
Always had the same clothes, looking duck funny  
Straight dummy but Webby was never dumb, buddy  
I knew I'd have my moment, so let me soak it in  
With your chick and, uh, some of her closest friends  
'Cause they know it now if they didn't know it then  
Now it's time to let the show begin!

Yeah I'm about to set if off  
Yeah I'm about to set if off  
Yeah I'm about to set if off  
Yeah I'm about to set if off
