

# Won't Be Today

Chris Webby

I've been here for a minute when the judge out lived it  
And I proved I'm here to stay  
Now they all gather and listen  
There's nothing left to give them  
But I still got more to say

I had a struggle on my ride here  
Caught up on in a...  
And I almost lost my way  
But if I ever call it quit  
All I know is death  
It won't be today  
It won't be today

I'm a survivor, I'm waiting my turn  
Now it's my turn, sir  
Had a deep dig, big axe, cold...  
I'm like a ghost rider  
Raised in a trailer, flow fighter  
...then make tape supplier  
Post it to your wires  
...they rubbin' sticks together...  
Get a car charge, hit the shit  
They already asking questions  
Like they only nod in this war, bitch  
'till I keep it dirty like a barn yard when I spit  
...So he's a player, he's come to the studio  
With a pair of cleeds  
...take it to the top  
Even higher than my hand complete

I've been here for a minute when the judge out lived it  
And I proved I'm here to stay  
Now they all gather and listen  
There's nothing left to give them  
But I still got more to say  
I had a struggle on my ride here  
Caught up on in a grime  
And I almost lost my way  
But if I ever call it quit  
All I know is death  
It won't be today  
It won't be today

You got trapped in a box of four seasons  
...still you watching for deeds  
And what's worse  
You can find a logical reason  
Been there when my past gone  
It might be a new look  
And the trap kept you  
That's why I stay in my notebook  
You're tough when you try to be  
I was less impressed  
The nigga would like I had his best interest  
...I'm alone for your sake, dog  
Faggs don't mix

Yeah, about that  
You will see how I react  
I'm single, I'm with the knife...  
But shit ain't what it used to be  
Let my folks know they got to get used to me

I've been here for a minute when the judge out lived it  
And I proved I'm here to stay  
Now they all gather and listen  
There's nothing left to give them  
But I still got more to say

I had a struggle on my ride here  
Caught up on in a grime

And I almost lost my way  
But if I ever call it quit  
All I know is death  
It won't be today  
It won't be today

You givin' up?  
It won't happen today  
Fuckin' burry me  
Put me in a casquette  
So while I'm here just listen up  
What I happen to say  
I show you history  
Be amazed in elaborate ways  
I'm still fully independent jogging up on the streets  
Tryin' to make the capital  
Holding down my shift key  
...So fill me  
Cause you're fucking with the flow and it's risky  
...you pussycats coughin' hairballs like...  
I spill venom  
I'm rappin' in the big league  
So grizzly  
You laugh up when you teddy bears ditch me  
So I'm here with this music shit  
Out here doing it  
We ain't going nowhere, bitch  
So get used to it  
Yeah!
