

## Aerial (edit)

Chris Whitley

Sheets of golden velvet rain  
Lubricate my naked steel again  
Let the day go by far below  
Million miles of sky all I know

Aerial, aerial, get on

Aerial power glide  
Preparing to see her, I got to rise  
And now I'm touching myself  
I'm painting my eyes

Let the day go by far below  
Million miles of sky all I know

Aerial, aerial, get on  
Aerial, aerial, get on

I got friends from other systems too  
They all need the same thing you do

Let the day go by far below  
Million miles of sky all that I know  
Let the day go by all I know

Aerial, aerial, get on  
Aerial, [Incomprehensible], get on
