Aerial (edit)

Chris Whitley

Sheets of golden velvet rain Lubricate my naked steel again Let the day go by far below Million miles of sky all I know

Aerial, aerial, get on

Aerial power glide Preparing to see her, I got to rise And now I'm touching myself I'm painting my eyes

Let the day go by far below Million miles of sky all I know

Aerial, aerial, get on Aerial, aerial, get on

I got friends from other systems too They all need the same thing you do

Let the day go by far below Million miles of sky all that I know Let the day go by all I know

Aerial, aerial, get on Aerial, [Incomprehensible], get on Aerial
