

Holiday

Chris Young

I don't need to pack a bag
I don't need a travel agent
Islands look cool on a map, but they can't beat my location
Cause when you smile at me, that's all the sunshine I need
Any place, any time, any day of the week

You make me wanna make a Margarita
You make me wanna put on my shades
You take me on a trip, around the world, don't need to hop a plane
When I'm with you girl, it's like I'm on vacay
I guess what I'm trying to say
You make every day like a holiday
You make every day like a holiday

When I've got you in my arms
I'm a thousand miles away
From any worries in the world
Baby, all of that can wait
Cause swaying to some music, while I look in your eyes
It's pretty easy to see, that I'm in paradise

You make me wanna make a Margarita
You make me wanna put on my shades
You take me on a trip, around the world, don't need to hop a plane
When I'm with you girl, it's like I'm on vacay
I guess what I'm trying to say
You make every day like a holiday
A holiday, baby

Everybody's got a photo, of their favorite view
You can see mine, in every picture of you

You make me wanna make a Margarita
You make me wanna put on my shades
You take me on a trip, around the world, don't need to hop a plane
When I'm with you girl, it's like I'm on vacay
I guess what I'm trying to say
You make every day like a holiday
Yeah, a holiday, baby
