

I Can Take It From There

Chris Young

Ain't nothin' goin' on in town tonight.
Except a loud party crowd drinkin' too much beer
So baby tell me would it be alright
If we just take a little rain check and stay right here.
I'm sure we could find somethin' to do
As a matter of fact baby why don't you grab
A couple glasses and a bottle of wine.
Walk down the hall and turn down the lights
And baby while you're at it you might as well
Let down your hair and I can take it from there.
Yeah I can take it from there.

I'm gonna put an ol' record on, Conway Twitty.
Yell girl I'd love to lay you down.
Kill the ringer on the telephone
Ain't gonna stop lovin' you til the candle burns out.

Oh there it is, that little smile of yours.
Come on darlin' whatcha waitin' for.
Grab a couple glasses and a bottle of wine
Walk down the hall and turn down the lights
And baby while you're at it you might as well
Let down your hair and I can take it from there.

Tomorrows gonna be here way too soon.
Let's not waste another minute girl,
I got plans for me and you.
Just grab a couple glasses and that bottle of wine
Walk down the hall and darlin' turn down those lights.
Baby while you're at it you might as well
Let down your hair and I can take it from there.
Oh I can take it from there.
