

Leave Me Wanting More

Chris Young

I know it's seven o' clock
I know I've already got a dinner reservations set for two
We made a plan to go out, but all I'm thinking about is meeting
Haying right here beside you
So if you change your mind and tell me that you wanna stay
Head on instead of going, you know what I'm gonna say
As long as I got your eyes staring back into mine
I got everything I need

We don't gotta leave this room
You don't have to get dressed up for me tonight, girl
To get me starng at you
You look good in any light
You're gonna leave me breathless
Ever if we never walk out that door
We don't gotta leve this room
For you to leave me wanting more (leave me wanting more)

Want more of your kiss landing right on my lips
Leaning right into me, skin on skin
Want more of just of us falling deeper in love
Over and over again

We don't gotta leave this room
You don't have to get dressed up for me tonight, girl
To get me staring at you
You look good in any light
You're gonna leave me breathless
Even if we never walk out that door
We don't gotta leave this room
For you to leave me wanting more
For you to leave me wanting more

So when you pull me closer and tell me that you wanna stay
Head on with me girl, everytime you know I'm gonna stay

We don't gotta leave this room
You don't have to get dressed up for me tonight, girl
To get me staring at you
You look good in any light
You're gonna leave me breathless
Even if we never walk out that door
We don't gotta leave this room
For you to leave me wanting more
You always leave me wanting more
