

# Love Don't Let Me Down

Chris Young

I've been a hard man  
Been a lonely man  
Been around the world and back again  
My kind of freedom was always leavin'  
And I thought hearts were just for stealin'

Then I saw the light in your eyes this morning  
And somehow I knew  
I was gonna take a chance with you  
Try to see this through  
So I'll be hopin' you

Don't let me down  
Love don't let me down

Been on the bad side of a lotta goodbyes  
Sometimes it felt like I was out of tears to cry  
So for my own sake I put my heart away  
Thought I'd try again on some sunny day

Then I saw the light in your eyes this morning  
And somehow I knew  
I was gonna take a chance with you  
Try to see this through  
So I'll be hopin' you

Don't let me down  
Love don't let me down

Lets make a promise we can believe in tonight  
Give me your heart and I'll give you mine

Don't let me down  
Love don't let me down

Love don't let me down

I've been a hard man  
Been a lonely man  
Been around the world  
Don't let me down

Been on the bad side of a lotta goodbyes  
Love don't let me down

No love don't let me down
