

You Do the Talkin'

Chris Young

Got you cranked up loud, getting pumped up for the night
But when we pull in her drive gonna turn you down quiet
I'll have one arm around her, one on the wheel
Hey radio, let's make a deal

I'll do the driving, you get us going
Play us a summer song that she knows and
I'll find a spot, I'll pull it over
You slow it down and I'll pull her closer
I'll find the moon and you bring the backbeat
You set the mood, we'll dance in the front seat
Hey radio, while you're playing we'll be falling
I'll do the kissin'
You do the talkin'

Let's make it a night that she'll never forget
Put nothing but thinking 'bout love in her head
With nothing but the glow of your light in the dark
Take us home with the one that we call ours

I'll do the driving, you get us going
Play us a summer song that she knows and
I'll find a spot, I'll pull it over
You slow it down and I'll pull her closer
I'll find the moon and you bring the backbeat
You set the mood, we'll dance in the front seat
Hey radio, while you're playing we'll be falling
I'll do the kissin'
You do the talkin'

I'll do the driving, you get us going
Play us a summer song that she knows and
I'll find a spot, I'll pull it over
You slow it down and I'll pull her closer
I'll find the moon and you bring the backbeat
You set the mood, we'll dance in the front seat
Hey radio while you're playing we'll be falling
Hey radio while you're playing we'll be falling
All night long and
I'll do the kissin'
You do the talkin'
Yeah, I'll do the kissin'
You do the talkin'
