

You're Gonna Love Me

Chris Young

If you like a man who
You can put your trust in
You don't have to worry
Where he's been
Then rest easy
Girl, you're gonna love me

And if you like to slow dance
To ol' Keith Whitley
Long Sunday drives out
In the country
I'm your cup of tea
Girl, you're gonna love me

Come and rest your head against my chest
'Cause I'm the one for you
You don't have to look no more
Your search is through

So, girl, if you like a handful
Of fresh wild flowers
A back rub on a bad day
Talkin' for hours
I'm good company
Girl, you're gonna love me

Come and rest your head against my chest
'Cause I'm the one for you
You don't have to look no more
Your search is through

So, girl, if you like a big heart
That's in this for the long haul
Till we're rockin' on the front porch
And they're callin' me 'papaw'
Till the last breath you breathe
Girl, you're gonna love me

Just try it and see
Girl, you're gonna love me
