

# Get Through The Night

Chrisette Michele

Let tonight  
Be this lonely  
Hold on tight  
To one girl only  
The memories, of how you hold me

Morning won't be like the nighttime  
I can't wait 'til sunrise  
I can't wait 'til my eyes open again  
And I know I'll smile in the daytime  
Waiting for the sunlight  
Everything will be alright  
I know it will  
Just gotta get through the night

Favorite songs  
I'd lean on my pillow  
If love is lost is lost is lost  
I cried tears of sorrow  
I will find true love tomorrow

Morning won't be like the nighttime  
I can't wait 'til sunrise  
I can't wait 'til my eyes open again  
And I know I'll smile in the daytime  
Waiting for the sunlight  
Everything will be alright  
I know it will  
Just gotta get through tonight

Just give me one night to fix all the problems  
Tonight, I miss the crying until the morning  
Tonight, when I finally realized our mistake  
Torn, I'm torn, baby I

Morning won't be like the nighttime  
I can't wait 'til sunrise  
I can't wait 'til my eyes open again  
And I know I'll smile in the daytime  
Waiting for the sunlight  
Everything will be just fine  
I know it will  
Just gotta get through the night
