

Love In The Afternoon

Chrisette Michele

No, come over now
I don't wanna strip to it

Everybody waits
Til the sun goes down
To show affection
Light it up at 8
Turn the covers down
To share the passion

I'm not like the rest
I don't mind kissing in the sunshine
Don't mind connecting in the day time
Start now, keep it cool tonight
Don't gotta be too fresh
People see through windows
We don't have to explode
I don't mean to impose

But let me have my way, ah yea
When you drift away, oh no
Show a little love, ay yea
In the afternoon, show me in the afternoon

Let me have my way, ah yea
When you drift away, oh no
Show a little love, ay yea
In the afternoon

Here's my disclosure
I'm a little sneaky
Underneath the warm
I'm on good behavior
I don't get too freaky
But I get real cold

I'm not like the rest
I don't mind kissing in the sunshine
Don't mind connecting in the day time
Start now, keep it cool tonight
Don't gotta be too fresh
People see through windows
We don't have to explode
I don't mean to impose

But let me have my way
When you drift away
Show a little love
In the afternoon

Let me have my way
When you drift away
Show a little love
In the afternoon

Good night, good night
Good night, good night

Good night, good night
Good night, good night

I really want you baby

Good night, good night
Good night, good night
Good night, good night
Good night, good night

I'm not like the rest
I don't mind kissing in the sunshine
Don't mind connecting in the day time
Start now, keep it cool tonight
Don't gotta be too fresh
People see through windows
We don't have to explode
I don't mean to impose

But...
Baby, let me have my way

Let me have my way
When you drift away
Show a little love
In the afternoon

Let me have my way
When you drift away
Show a little love
In the afternoon
