

# Love Won't Leave Me Out

Chrisette Michele

Here I go with my heart wide open  
I'm all frustrated again  
Yeah I locked the door, threw away the key  
Said I'll never let no one in  
I was gullible, I was wrapped up in the web you caught me in  
So vulnerable  
True love lost it's meaning

And after self-evaluation  
I found I lost me in translation  
See the girl with the broken heart  
See the girl with the ugly scars  
Is now the girl with the brand new start

Now I know how to love somebody  
I've learned love is out there for me  
No love there's no way that love forgot  
Love won't leave me out  
I know how to love somebody  
I've learned love will come back to me  
No love there's no way that love forgot  
Love won't leave me out

It's amazing to know how far you could go on hope with no doubt  
It's the way love goes  
It'll take you through and it always brings you out  
It won't leave you stranded  
Though you may feel abandoned  
My experience is my evidence

And with a little evaluation  
I found I got a whole lot of patience  
Now the girl with the broken heart  
And the girl with the ugly scars  
Is now the girl with the brand new start

Now I know how to love somebody  
I've learned love is out there for me  
No love there's no way that love forgot  
Love won't leave me out  
I know how to love somebody  
I've learned love will come back to me  
No love there's no way that love forgot  
Love won't leave me out

I can feel my heart again  
This time I'm not afraid  
I can open up my ear  
Hear what true love's got to say  
This time I want it all  
No matter run or fall  
I won't hold back at all when love calls

Now I know how to love somebody  
I've learned love is out there for me  
No love there's no way that love forgot  
Love won't leave me out

I know how to love somebody  
I've learned love will come back to me  
No love there's no way that love forgot  
Love won't leave me out

No, no, no  
It's not gonna leave me out, no, no  
I've come so far  
I've come so far for love to leave me out like this  
Oh yea  
Oh it didn't forget about me  
Love won't leave me out
