

Used 2 Be

Chrishan

I always thought we'd be closer
Never this far apart
And never thought it'd be easy
But never this there apart.

I never give up on nothing
I swear that if I'd give it up
But now you're asking for closure
Girl it's breaking my heart.

True skies with my heart should be
Two shots when reality run away
To a place where we used 2 be, used 2 be.

And I'm prayin before I fall asleep,
That the angels are watchin' over me, yeah yeah
I just wanna dream, oh oh,
What it used 2 be, used 2 be

You say you need someone different
I say you just need some time
You tell me that it makes no difference
But you can't tell me why.
How can you walk away from us?
You show you never give it up,
And now you ... like a gold...

True skies with my heart should be
Two shots when reality run away
To a place where we used 2 be, used 2 be.

And I'm prayin before I fall asleep,
That the angels are watchin' over me, yeah yeah
I just wanna dream, oh oh,
What it used 2 be, used 2 be

I said I wanna dream, yeah
You said I wanna be, yeah
I just wanna dream yeah
Now I used to be, used 2 be
Choose cars with my...
Choose shots in reality, I'm wide awake
To a place where we used 2 be
Used 2 be

And I pray before I fall asleep
That the angels are watching over me, yeah
I just wanna dream
It used 2 be, it used 2 be
