

## Devilish Sad

Christ Agony

My eyes  
With nocturnal vampirism they  
burn  
With the shadow of catacombs  
Floating with soul of my  
death...

My eyes  
With nocturnal bird they burn  
With the howling beauty of thy  
arms  
With the scream filled with pain  
They burn

My might  
Boundlessly it rises  
Power of the moons in the  
pentagon of love...

Our gods  
In their mothers' womb they burn  
In diabolical circles of courses of fiery dreams

Demon  
Demon of light  
Your sadness  
Is in my soul
