

Beautiful To Me

Christian Bautista

How I love the way you hold me and take both of my hands
But my doubts take over and I just don't understand
Whenever you are with me, everything is alright
Like the stars and the moon gave light to the darkest of nights
Like a child seeing fireworks spread across the sky
This is how I feel for you inside

You're beautiful to me
So beautiful to me
It may be so simple but I'll say it anyway
You're beautiful to me

Like the ocean and the waves caress the shore and the sand
Bringing in the soothing breeze, so tender and grand
Like the world is moving in slow motion when you look into my eyes
This is how I feel for you inside

You're beautiful to me
So beautiful to me
It may be so simple but I'll say it anyway
You're beautiful, beautiful to me

As the sun reflects upon the sea
You smile so unexpectedly
And here I am trying to catch every moment
You shine wherever place you're in
Your presence changes everything
Nothing in this world could mean anymore to me than you

You're beautiful to me
So beautiful to me
It may be so simple but I'll say it anyway
You're beautiful to me

Rainbows, sunsets, name a few
But not as lovely as you
You're beautiful to me
