## **Finding Out The Hard Way**

## **Christian Bautista**

I can't take all the blame now can I It takes more than one to lose Such a fine line that lies between But holds together

Turn to the night Turn to the time Whoa... and I'm findin' out the hard way It's gonna take some tears Little bit of heartache We're like islands in the stream Watchin' all our dreams Startin' to fade, fadin' away

A moment gone is gone forever It's like water through the hands And you spin the Wheel of misfortune

Watching the time We're livin' in love No... if I find another hallway It's gonna take some tears A little bit of heartache We're like islands in the stream Watchin' all our dreams Startin' to fade, fadin' away

I keep reachin' out Come up empty handed Didn't I let you down Or did I leave you stranded

And I'm findin' out the hard way It's gonna take some tears A little bit of heartache We're like islands in the stream Watchin' all our dreams Startin' to fade, fadin' away

Whoa... and I'm findin' out the hard way It's gonna take some tears A little bit of heartache We're like islands in the stream Watchin' all our dreams Startin' to fade, fadin' away Startin' to fade, fadin' away Startin' to fade, fadin' away Fade away...
