

# I Can Love You Easy

Christian Bautista

We've been connected all this time  
By an invisible string attached  
From your heart to mine  
We circle the obvious like  
Satellites that roam around the earth  
No. I'm never gonna let you go.

I can love you easy  
If you give me the chance  
Suddenly we feel so close  
And it happens so fast  
Let's take tonight  
This heart can't lie believe me  
Baby I can love you easy.

I hear you speak  
And it's like a song  
The funny thing is  
I think we both knew it all along  
We circle each other just like  
Children on a crowded carousel  
Oh, it's a story we have to tell.

We got so used to thinking  
That one is always far  
Love has a way of knowing  
Exactly where you are.
