You will always stay in my heart,
Oh my love, you're the reason why I believe in love... uh oh
No one will ever take your place,
Oh my love, every single day, my love for you grows stronger
If you had another choice
Will you stay here with me
You know that, I don't wanna go

Don't say goodbye
If you still believe in us
My love will never fade away
Never ever fade away
Even if you're far away, far away
Memories will keep us close
Someday we will be
Together you and me
Forever

Nothing's gonna change my love for you
I promise my love forever
Just believe in me, no I won't make you cry
Promise me, no matter what, you'll be back
Nobody can ever replace, you, in my heart
I will always, we will always

Don't say goodbye
If you still believe in us
My love will never fade away
No, never fade away
Even if you're far away, so far away
Memories will keep us close
Someday we will be
Together you and me
Forever
Someday we will be
Just you and me
