

## Since I Found You

Christian Bautista

I think of you in everything that I do  
To be with you what ever it takes I'll do  
Cause you my love, you all my heart desires  
You've lighten up my life forever I'm alive

Since I found you my world seems so brand new  
You've show me the love I never knew  
Your presence is what my whole life through  
Since I found you my life begin so new  
Now who needs a dream when there is you  
For all of my dreams came true  
Since I found you  
Your love shines bright  
Through all the corners of my heart  
Maybe you are my dearest heart  
I give you all I have my heart, my soul, my life  
My destiny is you  
Forever true... I'm so in love with you

Since I found you my world seems so brand new  
You've show me the love I never knew  
Your presence is what my whole life through  
Since I found you my life begin so new  
Now who needs a dream when there is you  
For all of my dreams came true  
Since I found you

My heart forever true...  
In love with you..
