

Since I Found You

Christian Bautista

I think of you in everything that I do
To be with you what ever it takes I'll do
Cause you my love, you all my heart desires
You've lighten up my life forever I'm alive

Since I found you my world seems so brand new
You've show me the love I never knew
Your presence is what my whole life through
Since I found you my life begin so new
Now who needs a dream when there is you
For all of my dreams came true
Since I found you
Your love shines bright
Through all the corners of my heart
Maybe you are my dearest heart
I give you all I have my heart, my soul, my life
My destiny is you
Forever true... I'm so in love with you

Since I found you my world seems so brand new
You've show me the love I never knew
Your presence is what my whole life through
Since I found you my life begin so new
Now who needs a dream when there is you
For all of my dreams came true
Since I found you

My heart forever true...
In love with you..
