

Stay My Love

Christian Bautista

My heart is hurting and its all because of you
What can I do to make you want to stay
I like to know you more each past and day
Lets sees the moment love will crush our way

I never try to keep a love on hold before
Love easy came was meant but there are more
I was so shallow reckless cold and sure
But you are to give me love secure

Be my love and love me in the sweetness of you being
Stay my love and we become the music in the ecstasy
Lets make the world a wonderland make believe
Lets us become the river of this magic
So stay and save me from this restless night
And see me trough the dark
I love you

My life will never ever be the same again
The love is gone, my turn to feel the pain
You are the one I've been waiting for
You are the one I'll cherish like a doll

Be my love and love me in the sweetness of you being
Stay my love and we become the music in the ecstasy
Lets make the world a wonderland make believe
Lets us become the river of this magic
So stay and save me from this restless night
And see me trough the dark

Lets make the world a wonderland make believe
Lets us become the river of this magic
So stay and save me from this restless night
And see me trough the dark

I'll give you all my love
Stay my love
