

# Don't Come Home

Christian Kane

Now, I ain't gonna lie  
Well, I've been drinking here all night  
With an old friend of mine  
Her name is Misery.  
I ain't been crying  
No I'm having a real good time with Miss Communications  
She always talks to me.  
I've got a lot of friends like them  
They always meet me here to have a beer so I won't be alone  
I never meant to bring them home.

I just called to tell you  
That I was wrong and you were on my mind.  
If you want I will leave you alone right now  
'Cause I know why you said, why you said  
Don't come home.

I bet you're with him  
Yeah, I heard you found somebody new  
He probably listens to you  
Like I never did.  
Wish I was in your arms  
Instead of talking to this machine about all the things I didn'  
t do  
Oh, what else is new?  
I've spent a lot of time like that  
Playin' memories and drinkin' remedies so I won't be alone  
I still can't believe you're gone.

I just called to tell you  
That I was wrong and you were on my mind.  
If you want I will leave you alone right now  
'Cause I know why you said, why you said  
Don't come home.

Don't come home, no no, no.  
Don't come home.  
I spent the last days anywhere you could be found,  
And I'd give anything if you'd turn back around  
Anyways...

I just called to tell you  
That I was wrong... can I come home?
