

Permanent 99

Christian Kane

The weather man says he's never seen
Temperatures rise as high as these in a long time.
Yeah, but we don't mind.
The car's lined up at the edge of the lake,
The radio's on and everybody's takin' the swing in the tree,
Not you and me.

Oh, that's just a waste of time,
We like how it feels just fine.

We're hot and sticky as we can get,
Don't need to take a swim to be soakin' wet,
You lean in and you bite my lip,
It's hard to be cool in heat like this.
Sweat drop at the end of your nose,
Makes you lose your mind and lose your clothes,
Let's kiss right here,
Why go inside,
Baby we're set to a permanent 99.

The movie house says it's cool inside,
We just laugh and drive right by,
With the windows up,
'ooo' It feels good to us.
'Cause all I wanna do when you look like that,
Is watch an ice cube roll down the small of your back,
And just melt away,
Yeah, I could watch that all day.

Close your eyes and read my mind,
Let's go somewhere watch the mercury climb.

We're hot and sticky as we can get,
Don't need to go swimmin' to be soakin' wet,
You lean in and you bite my lip,
It's hard to be cool in heat like this.
Sweat drop at the end of your nose,
Makes you lose your mind and lose your clothes,
Let's kiss right here,
Why go inside,
Baby we're set to a permanent 99.

Close your eyes and read my mind,
Let's go somewhere watch the mercury climb

'Chorus repeat 3x'
