

# Put Your Money Down

Christie

1st verse

Sit down at the table, if you wanna play  
Tell me something, mister, do you know my name?  
Didn't anybody tell ya who I am?  
I guess you oughtta know that I'm a gamblin' man  
I don't care which game you choose  
I don't mind 'cos you will lose  
But before we start to play  
There's one thing I wanna say

Chorus

Put your money down, boy  
Put your money down, boy  
If you wanna play with me  
You know you gotta lay your money down  
Put your money down, boy  
Put your money down, boy  
If you wanna play with me  
You know you gotta put your money down

2nd verse

Mister you look worried, you don't look so well  
But you might just be lucky, you can never tell  
People call me poker-face and that's my name  
Put your money down, we're playing for high stakes  
I don't care which game you choose  
I don't mind 'cos you will lose  
But before we start to play  
There's one thing I wanna say

Repeat chorus
