

Until The Dawn

Christie

Evening shadows fill the night
Glowing starlight shining bright
I will be here till morning light comes round again
Nothing can harm you if you trust in me, my friend
Rest your head on my pillow
Until the dawn, until the dawn

Soon the night will pass away
Soon we'll see the light of day
I promised you I'd never leave you alone
So close your eyes and hold me, never let me go
Rest your head on my pillow
Until the dawn, until the dawn
Rest your head on my pillow
Until the dawn, until the dawn
