All I Need

Christina Aguilera

Kissing your lips, kissing you top to toe Wishing for this, hoping for all we know Hearing you breathe, you leave and return Oh, how we take, how we give we learn

Taking my time, seeing the signs Letting you guide me home Watching you grow, letting you know You are my only

You bring me hope when I can't breathe
You give me love, you're all I need
Slowly I'm holding you closely
You're wrapped in my arms and you're inside me

Tell you my fears, telling you everything Telling the truth to you gives me wings Free with my words, free as a bird I am flying high looking at you Everything new, you are my life

You bring me hope when I can't breathe You give me love, you're all I need Slowly I'm holding you closely So happy to carry you inside me

I'll feed you, love, and I hope it's enough To inspire you through suffering, holding you up I'll feed you, love, and I hope it's enough To inspire you through suffering, holding you up
