

Around the World

Christina Aguilera

Tonight I want to get so wild and exotic
Baby let's explore
Imagine all the things we could do in one night
Everything and more

So tell me, tell me where you really wanna go
And gimme gimme what I'm asking for
From city city, international love
Take me all around your world

Hollywood to Japan, Tokyo to Milan
Baby just for tonight
We're making love worldwide
Brazil to Ibiza, baby just wanna please you
Baby just for tonight we're making love

All around around around it
All around around around it
All around around around the world we're making love
All around around around it
All around around around it
All around around around the world we're making love

We can talk dirty in different language 'Voulez-
vous coucher avec moi ce soir'
Or we can get erotic on a distant voyage

Baby sit back and enjoy the ride
I'ma take you places where you ain't been tonight
From city city international love
Take me all around your world

Hollywood to Japan, Tokyo to Milan
Baby just for tonight
We're making love worldwide
Brazil to Ibiza, baby just wanna please you
Baby just for tonight we're making love

All around around around it
All around around around it
All around around the world we're making love
All around around around it
All around around around it
All around around the world we're making love

Let me show you love baby let's go
Puerto Rico or wanna congo
Or we can take it down to the island
On the island you already know

It's whenever baby when there's me and you
It's whenever baby just the ticket for two
Freak around the world from day to night
You know how we do making love worldwide

Hollywood to Japan, Tokyo to Milan
Baby just for tonight

We're making love worldwide
Brazil to Ibiza, baby just wanna please you
Baby just for tonight we're making love

All around around around it
All around around around it
All around around the world we're making love
All around around around it
All around around around it
All around around the world we're making love
