

# Just a Fool

Christina Aguilera

Uh

Eh

Another shot of whiskey please bartender  
Keep it coming 'til I don't remember at all  
How bad it hurts when you're gone (no, no, no, no)

Turn the music up a little bit louder  
Just gotta get past the midnight hour (uh, huh)  
Maybe tomorrow it won't be this hard

Who am I kidding?  
I know what I'm missing

Oh, I had my heart set on you  
But nothing else hurts like you do  
Who knew that love was so cruel (yeah, yeah, yeah)  
And I waited and waited so long  
For someone who'll never come home  
It's my fault to think you'll be true (yeah, yeah)  
I'm just a fool  
(Yeah)

[Blake Shelton]  
I say that I don't care and walk away, whatever  
And I tell myself we were bad together (uh, huh)  
But that's just me trying to move on without you

But who am I kidding?  
I know what I'm missing

I, I had my heart set on you  
But nothing else hurts like you do  
Who knew that love was so cruel (yeah, yeah, yeah)  
And I waited and waited so long  
For someone who'll never come home  
It's my fault to think you'll be true (yeah, yeah)  
I'm just a fool

For holding onto something that's  
Never ever gonna come back  
I can't accept that it's lost

I should've let it go  
Held my tongue  
Kept my big mouth shut  
'Cause now everything is just wrong, wrong, wrong

I'm just a fool  
A fool for you  
I'm just a fool

I, I had my heart set on you (uh)  
But nothing else hurts like you do  
Who knew that love was so cruel (yeah, yeah, yeah)  
I waited and waited so long  
For someone who'll never come home

It's my fault to think you'll be true (yeah, yeah)  
I'm just a fool  
I'm just a fool  
I'm just a fool

It's my fault to think you'll be true (yeah, yeah, yeah)  
I'm just a fool
