

## Oh Daddy

Christina Milian

I used to be Daddy's little girl  
To us you meant the world  
And oh, how we seemed so happy  
Thought we had everything  
But oh, how the seasons changed  
When you broke up with us and made a new family

So many times I cried  
Sleepless nights  
Asking why did you go  
I still don't know  
What happened to the man I used to know?

You loved me then left me out here with no Daddy  
No longer a family with Daddy  
Though we struggled for a while we still made it through these  
trials  
I don't think back because we're ok, Oh Daddy

Day by day it got so hard  
Ma taking any job  
And the car just won't drive and nothing to get by  
Next thing we in a food line  
These things, no you didn't see  
Cuz dad you gave up on me  
I just kept following my dreams

Now slowly I start to understand  
This was just all part of a plan  
Cuz without you we've been through so many things  
Now to you we are thanking  
And every word I say is true  
I couldn't forgive but now I do  
But we still can't forget I just can't let it happen all over a  
gain
