

## Autumn Dawn

Guldbrandsen, Christine

In the early autumn dawn  
I recalled we were dancing  
In the summer night  
The stars were shining  
Brighter than a diamond ever could

I was safe I was warm  
Like no one could do me harm  
And I wonder is it love that I'm feeling  
Hold me close to your light  
Stay forever here tonight  
Let forever last a lifetime beside me now

Through the stars and do believe  
Everything and its story  
Now my eyes are reflecting my emotions  
Show you what I'm trying to conceal

I am safe I am warm  
Like no one can do me harm  
And I wonder is it love that I'm feeling  
Hold me close to your light  
Stay forever here tonight  
Let forever last a lifetime beside me now

I am safe I am warm  
Like no one can do me harm  
And I wonder is it love that I'm feeling  
Hold me close to your light  
Stay forever here tonight  
Let forever last a lifetime beside me now
