

Autumn Dawn

Guldbrandsen, Christine

In the early autumn dawn
I recalled we were dancing
In the summer night
The stars were shining
Brighter than a diamond ever could

I was safe I was warm
Like no one could do me harm
And I wonder is it love that I'm feeling
Hold me close to your light
Stay forever here tonight
Let forever last a lifetime beside me now

Through the stars and do believe
Everything and its story
Now my eyes are reflecting my emotions
Show you what I'm trying to conceal

I am safe I am warm
Like no one can do me harm
And I wonder is it love that I'm feeling
Hold me close to your light
Stay forever here tonight
Let forever last a lifetime beside me now

I am safe I am warm
Like no one can do me harm
And I wonder is it love that I'm feeling
Hold me close to your light
Stay forever here tonight
Let forever last a lifetime beside me now
