

# Friend

Christine McVie

Long ago  
Before the moon was young  
And before the first love song  
Had ever been sung  
We both knew  
Beyond a shadow of doubt  
What loving somebody  
Was really all about

When the sun goes down  
And you are not around  
I'm sailing on a prayer  
Don't you know  
I told everyone  
I even told the rising sun  
That I really need my friend

When the sun goes down  
In this sleepy little town  
All the world keeps spinning  
And the planets turn around  
All alone  
Lonely as the stars  
Well I just wanna be  
Wanna be where you are

When the sun goes down  
And you are not around  
I'm sailing on a prayer  
Don't you know  
I told everyone  
I even told the rising sun  
That I really need my friend

Repeat Chorus

When the sun goes down  
And you're not around  
I'm sailing on a prayer  
Don't you know  
I told everyone  
I even told the rising sun  
That I really miss my friend
