

Kiss The Bride

Christophe Willem

Tell me why
I don't want to touch you now
When I cry
Close the door
I can't stand to see your eyes
Anymore
No regret
But don't forget
What I gave
I don't need you to explain
I don't need to wait in vain

I don't wanna kiss the bridge
I just wanna find me a girl
Unlike you
I don't wanna kiss the bridge
I just wanna find me a girl
Who cares too
I don't wanna kiss the bridge
I just wanna find me a girl
To leave you
Break it all
I don't care it's no a shame
Our love is gone
Take it all
I won't ever call your name
I'll carry on
No regret
But don't forget
What I gave
I don't need you to explain
I don't need to wait in vain

How can I keep on loving
When you won't get along
You never thought you were
The one for me
