Any Old Time

Christopher Cross

Everyone maybe once or twice Finds a friend that's a friend for life Somebody who believed in me like you From those days of childhood fights Through the nights when we'd ask advice All of those times when nobody else would do

Any old time that you wanna hear from me To find your way or kick around a memory Like the old times Any old time will do

I can tell when the telephone rings It's gonna be you just to talk about things It's funny how it seems to happen when you're on my mind Every time good love goes bad When I can't believe the luck I've had All of those times I'm glad you're a friend of mine

Any old time that you need to call on me To find your way or kick around those memories Like the old times Any old time will do

Don't you ever forget Any old time when the road is getting rough to climb And you think maybe you've had enough Just like the old times Any old time you're blue

All at once I went and got a hunch Everything we ever felt was true As we find the years behind us and we live the years ahead Let's remember laughter and all the words we said

Make new friends and keep the old One is silver and the other one's gold Something Sally said that stuck in my head And I never wanna let it go

Any old time that you need to lean on me I'll be there -- you can dream on me Just like the old times Any old time will do
