

## Baby Says No

Christopher Cross

Baby says no  
She can't let go this soon  
Doesn't feel right  
Not tonight  
Even though I gave her the stars and the moon  
I really think I've got it bad this time around

Baby says yes  
But I must confess  
It really doesn't seem to matter  
'Cause I'd follow that girl all around the world  
Even if I never had her  
I really think I've got it bad this time around

Gonna show 'em what love can do  
Gonna tell 'em 'bout me and you  
Gonna show 'em what love can do when it's right  
And this time it's right

Love is the light that can shine so bright  
But sometimes it fades away  
Then you find one that can shine like the sun  
And she comes up for you every day  
I really think I've got it bad this time around

Oh when the girl is so far away  
I can't think of all the right words to say  
But now she's here and we are all together
