

Dreamers

Christopher Cross

Off in a million dark corners
Dreamers sit plying their trade
Mind like an open umbrella
Dreamers dreamers
Calmly watch the parade
As we gasp at the madness
They dream through the horrors we grieve
What would the world be without them
Dreamers dreamers
Bring our only reprieve
Look inside them
No one's there
Steal their secrets
They don't care
Dreamers see beauty in trouble
Dreamers find truth in it all
Tuning their ears to the starlight
Dreamers dreamers
May the universe call
All good dreamers know despair
Take your best shot
They don't care
Dream a lot
All good dreamers know despair
Take your best shot
I don't care
Some dreamers dream till they get there
Some dreamers stop at the door
So let's sing a song for the lost ones
Dreamers dreamers
May they dream ever more
