Every Turn Of The World

Christopher Cross

We think about the loves we lost Will it come again We think of all the things we want Will we ever win

We listen to the voice of children Will they find their way Keep an open heart The answer to it all's a wish away

Never let the tears you're cryin' blind you To the dream that's waitin' to find you 'Cause there's one more chance With every turn of the world

Is it gold or glory A taste of freedom Or the strong warm touch of a body There are all these things with every turn of the world

Human kindness - diamond of the heart Tearing down the old walls As long as we can share Desire's not a sin, after all

When you find yourself alone Missing tender magic touching you Keep an open heart Everything you dream can still be true

We all want a world we can live in We all want a world full of love It's never too late It's never too soon Whatever you can do is enough
