

# Leave It To Me

Christopher Cross

Well it's just another morning  
And I see you at the usual place  
And I'm pretty certain that you've been hurtin'  
I can see it in your fabulous face  
It looks to me like you need some healing  
And I got this feeling I might be good for you  
You know there's something about you  
Makes me want to go out of my way  
To make you forget him as if you never met him  
And remind you it's a beautiful day  
But if the rain comes don't you get nervous  
I'm at your service to be your umbrella boy  
If your heart's had a real rocky landing  
And you need some sweet understanding  
I got it here and if you'd like to receive it  
Just leave it to me  
I guess I'm not the kind of man  
That you hold every night in your dreams  
But everybody knew it except for you  
That that other guy is not what he seems  
Don't feel too bad 'cause you were mistaken  
You need a break and I think I have a plan  
If you feel like your head's out to getcha  
You could use a little laughter I'll betcha  
You lost your heart and you can't quite retrieve it  
Just leave it to me  
Just leave it to me  
Ooh little darlin'  
Living in this world just cuts to the bone  
If I could help you  
I might find some meaning here on my own  
And I won't get so lonely  
Now the sun is setting  
And my fears are beginning to rise  
But all my darkness would fly away  
If I could take the trouble out of your eyes  
So if you need me honey I'll be there  
I guarantee there's nothing I wouldn't do  
If your heart's had a real rocky landing  
And you need some sweet understanding  
I got it here and if you'd like to receive it  
Just leave it to me  
If you feel like your head's out to getcha  
You could use a little laughter I'll betcha  
You lost your heart and you can't quite retrieve it  
Just leave it to me  
Just leave it to me
