

Dragonfly

Christopher Dallman

There's a dragonfly buzzing around in my head
I can't look him in the eyes
With all these worries
I'm going to let him fly

There's a dragonfly buzzing around in my head
Why should I keep him down
I'm going to sip my red wine
Ride the skyline
Let him loose on this town

Race the light
Race the light
Ride the night

There's a dragonfly buzzing around in my head
We go find like kind
Dressed up so nice
We don't think twice
We leave the day behind

Race the light
Race the light
Ride the night

I kiss the cheek of every stranger
Lift them with my love
In this night there is no danger
What was I scared of?!
It's all about my dragonfly
I'm so right here and then
Suddenly I sink to sadness
Every party ends
I say goodnight to my friends

Face the light
Face the light
Say goodnight
