

Colours

Christopher

I remember, looking out of my window
I kept staring, at a thousand shades of grey
I remember, back when I was flying solo
There was a black cloud I just couldn't blow away

It was a black and white movie where I played the part
Of the broken guy hopelessly left in the dark
I thought I was broken till you came to me
You opened my eyes, now I see

All the colours, when you're around
Oh the colours, when I see your smile
It's like fireworks in the night
A million butterflies in the sky
Oh the colours, oh the colours

When you're with me, we're not painting by numbers
We're like graffiti on the empty concrete walls
When you're with me, it's like everyday is summer
Your lovin' hits me, like a heatwave in July

You are the red to my heart and the blue in my eyes
The bright yellow sun that is casting its shine
The greener the grass, the better the high
Oh now I see

All the colours, when you're around
Oh the colours, when I see your smile
It's like fireworks in the night
A million butterflies in the sky
Oh the colours, oh the colours

Oh baby, can't you see
You mean the world to me
There is no other place
I'd rather be

All the colours, when you're around
Oh the colours, when I see your smile
It's like fireworks in the night
A million butterflies in the sky
Oh the colours, oh the colours

All the colours, when you're around
Oh the colours, when I see your smile
It's like fireworks in the night
A million butterflies in the sky
Oh the colours, oh the colours
