

# Doctor

Christopher

(Verse)

I keep having these headaches, these painkillers won't work  
I feel a sharp pain in my chest, it's only getting worse  
My vision is kinda blurry, it's hard for me to breathe  
It feels like I've tried everything but there's no remedy

(Chorus)

(I need) no doctor  
(I need) no friends  
(I need) no pharmacy 'cause there's no medicine  
(I need) no nurses  
(I need) no care  
I only need to know that you will always be right there

(Interlude)

Fully self-destructive, I need my daily doze  
There's so much going on inside, I'm ready to explode  
I'm staring on my window, waiting for the car  
You can call me crazy but don't think that I don't know

(Bridge)

What I need, what I need  
What I need, what I neeeeeeed  
What I need, what I need  
What I need, what I neeeeeeed

(Verse)

I'm turning to this liquor, I smoke a pack a day  
Asking myself where the fuck did you decide to leave?  
They tell my that I've lost it, they say I'm in denial  
They say you don't believe it baby, tell me it's a lie! Oh!

(Chorus)

(I need) no doctor  
(I need) no friends  
(I need) no pharmacy 'cause there's no medicine  
(I need) no nurses  
(I need) no care  
I only need to know that you will always be right there

(Interlude)

Fully self-destructive, I need my daily doze  
There's so much going on inside, I'm ready to explode  
I'm staring on my window, waiting for the car  
You can call me crazy but don't think that I don't know

(Bridge)

What I need, what I need  
What I need, what I neeeeeeed  
What I need, what I need  
What I need, what I neeeeeeed

(Verse)

It's an emergency, someone please call 911  
I need you to help me, someone came and took my heart  
And if you find her, bring her back to me  
She's the reason why I breathe, she got everything I need

(Bridge)

What I need, what I need

What I need, what I neeeeeeed

What I need, what I need

What I need, what I neeeeeeed
