

## High On Life

Christopher

I saw the usual day through the night  
Them being natural, I fell from the sky  
And did this spectacular, opened my heart,  
You're like a miracle sent from above

Baby, our love's like a tower  
We will wait beyond the clouds  
And though we started from the ground  
We're in the sky

And we're taking off tonight  
And we got it all tonight  
And even when the sky is falling down  
We be high on life

And I'm like an animal, feeling alive  
And no drug's comparable this natural high  
And we are unbreakable, and words be a flight  
The stars will be watching us flying tonight

Baby, our love's like a tower  
We will wait beyond the clouds  
And though we started from the ground  
We're in the sky

And we're taking off tonight  
And we got it all tonight  
And even when the sky is falling down  
We be high on life x6
