

# Friday Night

Romano, Carlson Christy

Manic mondays singing you to sleep  
You could use some time to breathe  
Wake up please  
A lonely weekend isn't what you need  
You wont feel so guilty cuz you love the crime on

Friday night  
Baby are you sleeping  
Friday night  
My heart is still beating  
Its alright  
Open up your sleepy eyes  
Come alive, come alive on friday night

Wearing night clothes never felt so cold  
Wish we were a little older  
Restless souls  
I cant hold this ladder for too long  
Wont you open up your window  
Come outside on

Friday night  
Baby are you sleeping  
Friday night  
My heart is still beating  
Its alright  
Curfew's gunna break my heart,  
So come and meet me in the dark  
Friday night  
You're under the covers  
Friday night  
We could be lovers  
Its alright  
Open up your sleepy eyes  
Come alive, come alive on friday night

Baby it's no surprise  
The price is right  
I'm bob barker  
Hold on to the prize  
Cuz its friday night, friday night come alive

Friday night  
Baby are you sleeping  
Friday night  
My heart is still beating  
Its alright  
Curfew's gunna break my heart,  
So come and meet me in the dark  
Friday night  
You're still under the covers  
Friday night  
We could be lovers  
Its alright  
Open up your sleepy eyes  
Come alive, come alive on friday night

Yeah  
Come alive come alive on friday night  
Oh  
Come alive, come alive
