

Away Ye Broken Heart

Christy Moore

Away, away you broken heart you
Leave my chest like a hollow cave
Stand me somewhere near the ocean
I will wait there wave after wave

Away, away you broken heart you
Who can heal you when you're like this
There's no angel born in heaven
There's no lover's healing kiss

Away, away you broken heart you
Lose yourself in the darkest night
If the stars can take your sorrow
Let them take it and that's alright

Away, away you broken heart you
Leave my breast like a hollow cave
Stand me somewhere near the ocean
I will wait there wave after wave
