

## Lady

## Chromatics

If I could only call you my lady  
Baby I could be your man  
If I could only call you my lady  
Baby I could be your man  
Baby I could be your man  
Baby I could be your man  
If I could only call you my lady  
Baby I could be your man

Baby I just want you to come back  
Give us all something to do  
Baby I just want you to come back  
Give us all something to do  
Give us all something to do  
Give us all something to do  
Baby I just want you to come back  
We really need something to do

I was always looking for lady  
Baby you're so far away  
I was always looking for lady  
Baby you're so far away  
Baby you're so far away  
Baby you're so far away  
I was always looking for lady  
Baby you're so far away
