

## Descending Away From You

Chromium

I'm finding it hard to comprehend  
It's getting far to close to the end  
Your means are understandable  
I'm seeing it clearly now

Constant fear now, can you hear me?  
I'm calling your name  
Separation can you feel me now?  
Sense you near me, do you believe?  
I'm feeling the same  
Reawaken, I'm alive inside of you

I realise that this is true  
It's all descending away from you  
Assuming all that's left is gone  
And we're no longer left behind

In life we each shall fall  
The worst will be undone  
Anticipate it all  
We will over come
