

Descending Away From You

Chromium

I'm finding it hard to comprehend
It's getting far to close to the end
Your means are understandable
I'm seeing it clearly now

Constant fear now, can you hear me?
I'm calling your name
Separation can you feel me now?
Sense you near me, do you believe?
I'm feeling the same
Reawaken, I'm alive inside of you

I realise that this is true
It's all descending away from you
Assuming all that's left is gone
And we're no longer left behind

In life we each shall fall
The worst will be undone
Anticipate it all
We will over come
